Dear Ehud,

It was very nice meeting you at the summit in Aspen. I am reaching out in the hopes that perhaps you can help influence a terrible situation. The husband of my friend - Nina Gold who is a very successful casting agent based in the UK - is one of the Greenpeace activists being held in prison in Russia on piracy charges following a peaceful protest. Nina is desperately trying to find ways to gain access to anyone who is close to Putin and who can either help her gain information through their personal contact, or help influence the situation through private direct contact. Is this a situation that you could possibly assist with?

All my best,
Harvey
